

# Let's make a paper frog!

Design and Illustration Kevin Tang

1

Cut page out along the dotted line.

2

Turn over and fold all the corners towards the centre.

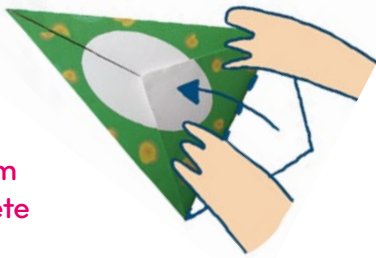

Connect the muscles of the frog!!

3

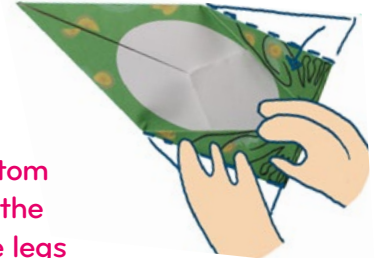

Bring the left and right corners into the centre.

4

Fold up the bottom triangle to complete the stomach

5

Fold the two bottom corners towards the centre to see the legs

6

Fold down the top triangle to show the tongue

7

Now use your muscles and fold up just above the top of the knees

8

Then fold down to show the top of the feet and turn over

9

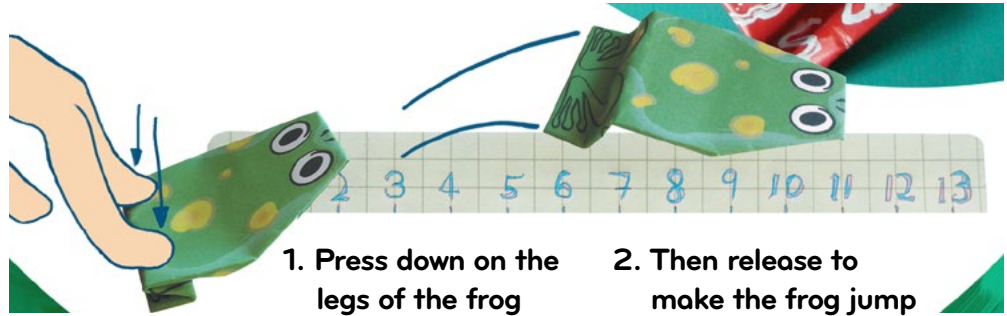

Here is your finished frog!

Make a frog family of different sizes and colours!

Have a  
long jump  
competition with  
your friends!!

## Let's make a paper boat.

Cut page along dotted line

Fold page on middle line

Fold down both upper triangles

Align corner to make a flower

Fold bottom strip upward. Turn

Fold the other bottom strip up,

You've made a hat! Turn over &

Align the top & bottom corners.

It must look like this.

Fold the top front triangle downward

Turn it over and do the same

Open hat again

Align the top and bottom corners.

Pull apart the upper corners.

Open it slightly from underneath.

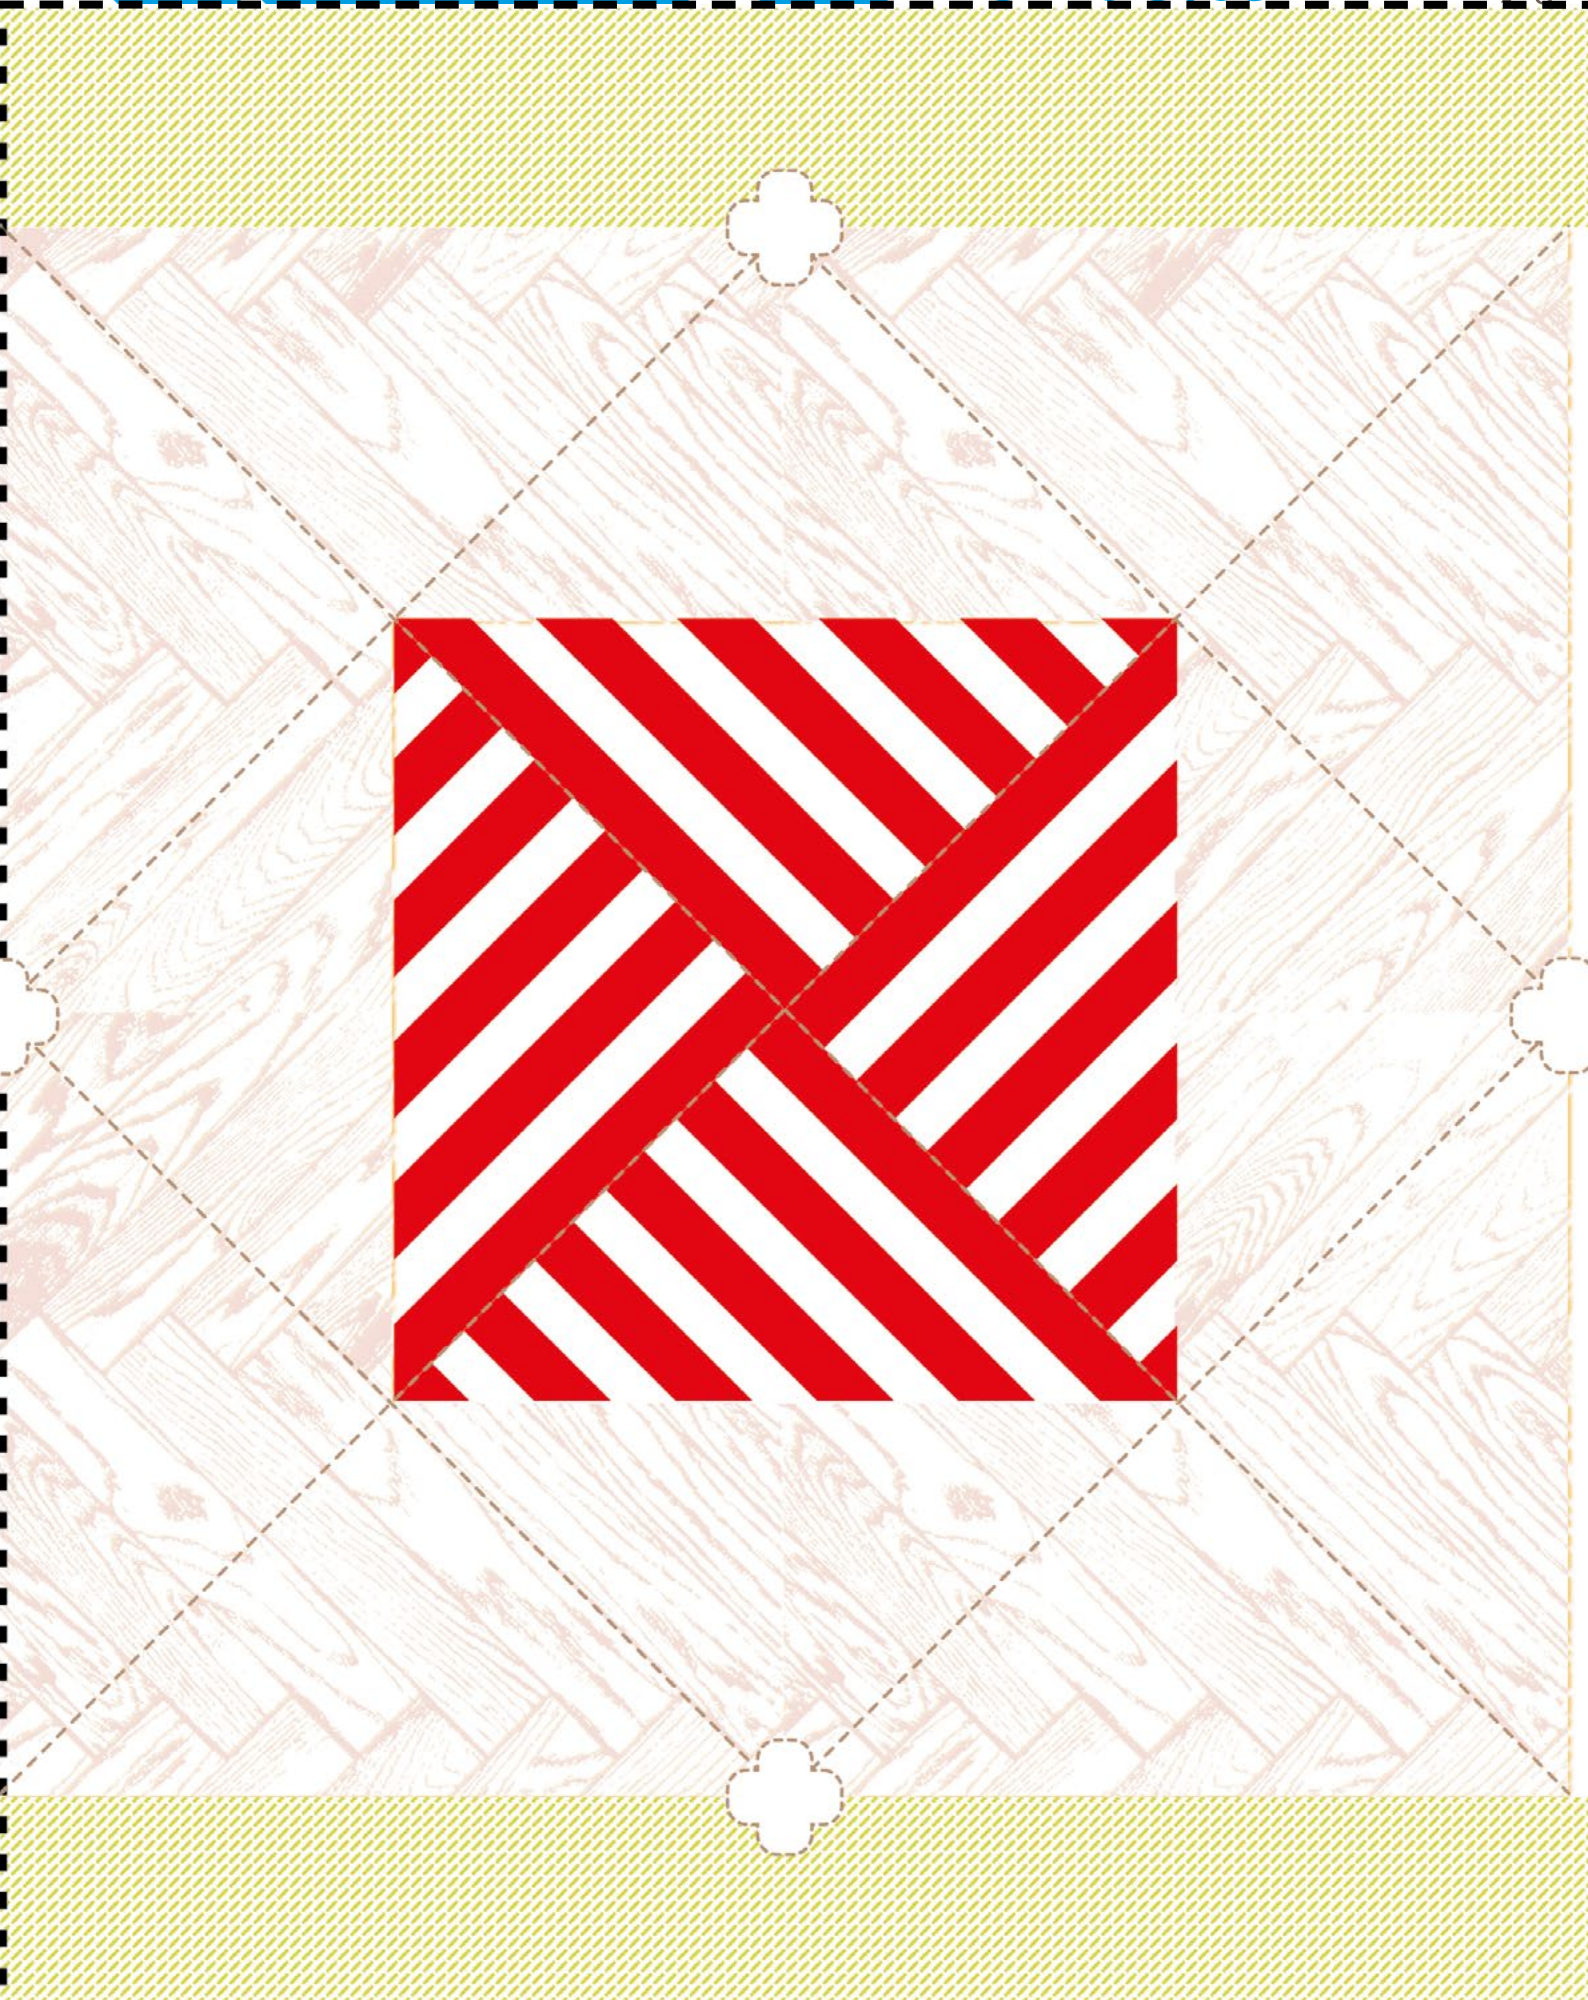

Here is your boat!
